Subject: Pebble Project Baseline Studies Agency Meetings
[Agency Meeting Announcement.pdf](#)

We have just realized that our July 8th hard copy letters to some agency representatives were sent to an incorrect address and that some representatives may be unaware of our Pebble Project agency meetings sessions scheduled from Tuesday October 11 through Friday 14 at the Downtown Marriott Hotel. To ensure all representatives are aware of these meetings we are sending this email to our entire data base.

Attached is a copy of the July 8 letter that provides some background. At the meetings we will be presenting results of our 2004 through 2008 baseline studies that constitute the basis for the Pebble Project's environmental baseline document. We'll also present our 2009 and 2010 results, where applicable, and describe our 2011 activities.

We apologize for this mix up and hope it will not cause you scheduling difficulties.

Sincerely,

Ken Taylor
Vice President, Environment
